The new President took charge and called on Peter Jamieson, District Agriculturist from Lethbridge to instruct members in 4H Club activities. Club leader Murry Holt instructed members on the care and feeding of new calves, which were delivered on November 1st.

Mr. Jamieson called on each member to tell how his calf was and what feed it was receiving. It was decided to hold monthly meetings on the first Wednesday at 4 p.m. in the High School. The meeting was adjourned shortly after 5 p.m. There are 11 members this year with 5 new ones.

Jacks Trampled By Rockets

—For Second Loss

The Raymond Union Jacks suffered their second straight defeat in as many start here when they were overpowered 71-42 by a band of greatly improved Magrath Rockets.

Pacing the Rockets to victory was the BYU's former star Tom Karren. He raced past Al West enough times to dunk 28 points. Karren was the lone scoring star of the evening as far as points go for his closest rival was Rice with ten while Matkin and Pashuk followed with seven each. For the losers it was Larry West with 13. He was ejected from the game after what the referee called a intensional foul. Al West who along with most of Raymond squad was having a very noticeably bad night, struck for only one field basket and added nine free tosses to bring his total to 11. Lee Fairbanks clicked for 6 and Nalder and Snow had 4 each.

The Raymond club was having one of those nights when nobody could do anything very well. They fell behind from the first whistle and never came closer than three points. The Sugar City cagers rallied midway looked very bright but the Rockets suddenly found their hosts weak spot and took advantage of it. When the first half was over Rockets led 31-23.

Early in the second canto the locals staged a rally and drew within three points but once again the power laden Rockets spearheaded by Tom Karren surged ahead and the difference in scores steadily increased. The final tally resting 71-42.

The game was more than a bit one sided during the latter stages, however all loyal Raymond Union Jack fans take it in their stride and merely shrug off the locals bad showing as an off night. We trust that our beloved native sons will once more become that crowd pleasing, spine tingling band of whoop warriors that won the Alberta and the International basketball loops last fall.

Garry Salmon the former Comet star is now back and will likely see much action if he can develop some of that ability he showed in his high school days.

Lineup:

Magrath — Karren 28, Rice 10, Matkin 7, Alston 5, Sabey 6, Davies 6, Pashuk 7, Johnson 2, Redd, Ririe.

Raymond — Nalder 4, Fairbanks 6, L. West 13, A. West 11, Shaw 2, Snow 4, Salmon, Ralph, Dahl 2.

Mrs Rose Hudson's Bee Hive Class called on Mrs. Agnes Atwood to sing Christmas caroles to her and listen to her lifes history of when she joined the LDS Church. Lunch was enjoyed by the 14 present.

Professional Troupe Presents 'Romeo and Juliet'

The Raymond Opera House was the scene of a fine Shakespearean performance, by a group of professional actors and actresses who comprise the Lancaster Theatre Company from Penticton B. C.

Some 300 students and adults from Raymond and district gathered to witness the dramatic classic play "Romeo and Juliet"

The action of the play took place in Verona, Italy, about 500 years ago. The appropriate scenery and background presented the streets of Venice.

The lighting also cast moods deeply felt by the audience. The gaiety and excitement of the Square, the suspense in the gloom of Capulet's tomb, the romance of the balcony and gardens, along with the reverence of the Friar's Cell were all emotions grafted into the audience's hearts.

Ian Thorne, brilliant young man of the theatre, whose sensitive directoral hand has been behind every Lancaster production, is the director of this tragic love story.

Rosemarie Meyerhoff, a rising young Canadian actress played the challenging and beautiful role of Juliet. Her sincerity and charm endeared her to the audience.

Vera Keuhn was up to see her husband, Bert who is a patient in the Fort Macleod hospital following a car accident.

A farewell service was held recently honoring Llewellyn Hippard, in the Second Ward Sunday evening service. He has been called to the British Mission.

Llewellyn was presented with a Book of Remembrance from the Ward.

He left on Monday for Salt Lake City to enter the mission home prior to his leaving for England.

Christmas Party Planned By WA

The W A of the United Church held their monthly meeting in the form of a Christmas party on Thursday evening at the home of Mrs Alma Helgeson. Election of officers placed Mrs Hately as president, Mrs. Frances Lund, Vice-president, and Mrs. Doreen Douglas as Secretary. After the business, whist was played with honors going to Fran Lund and consolation prize to Marie Gerun. Mrs. Irene Minton received the lucky chair prize and Mrs. Roy Dahl took home the traveling prize.

Reports from their bazaar and tea was very good and they would like to thank everyone who helped to make it a success.

'54 Stampede Showed A Profit

—Citizens Show Little Interest In
Annual Meeting

If the interest shown by the attendance at a recent Stampede meeting is anything to go by there want be much of a Stampede in Raymond next year.

The annual meeting was postponed once, because of lack of attendance the first time it was felt that many who would have liked to have been there were busy with the harvest, but no reason could be found for the second meeting but just plain disinterest. Two people — Cliff Williams and Bert Hall were the only ones present who were not members of the executive.

The "meeting" was conducted by President Mel Depew with each member of the executive present giving his report. The financial statement read by Treasurer, Leonard Watson showed that in 1954 activities showed a profit of approximately \$1,300. This profit was due in part to the volunteer help donated before, during and after the Stampede, but mainly to the fact that the livestock used was donated the cost of stock for 1953 Stampede was \$1200.

A proposal Constitution for the Raymond Stampede Association that had been prepared by Gerald Snow was read and after the various points had been discussed it was moved the Constitution be presented to the Town Council for approval before adopting it for the Association.

Due to small turnout the executive President, Mel Depew; Vice President Max Hamilton; Secretary Harry Stevens; Treasurer, Leonard Watson; two directors, Gerald Snow and Ted Meeks; was automatically returned to office for another year.

The Stampede next year will be a dual celebration—marking the anniversaries of both the Town of Raymond and the Province of Alberta and plans are now being worked on by the executive to make sure it is a real bang up celebration, but it will die as a miserable failure if more enthusiasm and public spiritedness is not shown next summer than was evident at the recent annual meeting.

Sally, daughter of Mr. and Mrs. Joe Kirkham celebrated her 6th birthday with a party for her friends recently.

Comets Manhandle The Hat

In a game which resembled very much the sport of football our local R H S Comets opened their league schedual with a flying start in the Opera House Sat. 27. It was the day the Eskimos won the Grey Cup and football was on everyones brain. Such rough and tumble football is not seen often in this section of the country. The Comets emerged victorious to the tune of 68-27, not however without a few bruises.

Playing a style of ball which we consider very unorthodox the Gas City gang held their own very well during the first half and were only behind 23-19 when the first twenty minutes were over. Coach Jacobs had no idea of making a close game of it however and when the two teams

Why is Max Ferguson hitch-hiking from Toronto to Halifax? Simple ... Rawhide's "boys" as he calls them, because "The Rawhide Show" will be back for another season on the CBC Trans-Canada network and it will originate from Halifax instead of Toronto this year. It's no secret, of course, that Ferguson has a lot to do with Rawhide and his boys; all the different voices on the show are done by Max. With old Rawhide himself and Ferguson uses as many as a dozen different voices on one program, though he has not yet managed to have them all talking at once. The little gaffer, above, is not one of Rawhide's "boys." He is Ferguson's son Scott. The rest of the family has also moved to Halifax but, we are told, they took a train.

Banner in the Sky —

By James Ramsey Ullman.

"Banner in the Sky" is Ullman's sole novel for teen-agers. It is a triumphant book of a boy and a mountain by the author of The White Tower

So vast was it, so steep, so mighty that it seemed more than a mere mass of rock, more than an icy mountain. It seemed a new world rising up out of the old world that was its mother a world with a life and meaning of its own; beautiful, menacing, beckoning!

So stood the Citadel, the highest mountain in Switzerland and below in the village of Kurtal men looked at it and shook their heads. For the Citadel they knew was unclimbable. Not only was it higher than man had ever reached but it was guarded by evil spirits - spirits that had taken the life of Kurtal's greatest guide, Josef Matt fifteen years ago.

Only sixteen year old Rudi, Josef Matt's son, washing dishes in a hotel dared dream of challenging the Citadel. He would tell no one of his dream for he knew how men would mock and his mother would despair.

In a fateful encounter on the Blue Glacier, Rudi met the Englishman, Captain Winter who also believed that the Citadel could be conquered. Rudi knew he must join the Englishman's expedition and plant on the summit the red shirt his father had worn on his last climb. He must go in spite of his mother, in spite of his uncle, in spite of the hated Emil Sax from the rival town of Broll.

Inevitably the day came when Rudi joined the party making the great assault. Then foot by foot, by rope, axe and handhold, the reader follows the party upward over rock, ice and snow to a climax as magnificent and terrifying as the sight of the Citadel's peak piercing the sky.

Death of Notable Authors:

A well known author - William MacLeod Raine died on July 25, in Denver. Author of 82 western novels, Mr. Raine was one of the few newspapermen who had been associated with all five of Denver's newspapers. Born in London, he came to this country at the age of ten and was educated at Oberlin College.

ALBERTA WHEAT POOL OPERATIONS

At the annual meeting of the seventy elected delegates of the Alberta Wheat Pool which started in Calgary on Tuesday of this week it was reported that the surplus for the business year ending July 31, was \$2,448,106. That was a decline of \$242,631 from the preceding year.

Handlings of Alberta Pool Elevators at 56,186,415 bushels were down about 23 1/2 million bushels from the previous year due to grain congestion and the method used in distributing railway grain cars. In their reports, both the board of directors and the manager of the Wheat Pool, A. T. Baker, protested that the system of car distribution is unfair to the Wheat Pool as it prevents Pool members from using their own facilities to the fullest degree.

During the business year in review the Alberta Wheat Pool distributed \$2,495,099 in patronage dividends involving a cash distribution to member patrons of Pool Elevators of \$587,093, and distributed reserve credits of \$1,908,006.

Since the Alberta Wheat Pool was organized it has paid out \$6,256,155 in cash patronage dividends and has purchased reserves from the member ship totalling \$9,122,307. Last year alone such reserve purchases totalled \$600,572 to members who have ceased farming and to the estates of those who have passed away.

During the past year 2,314 new members joined the Alberta Wheat Pool.

As at July 31, 1954, the Alberta Wheat Pool owned 507 country elevators, 2 terminals, 397 dwellings, 42 coal and flour sheds and 505 country annexes.

The members' equity in the fixed assets and working capital totalled \$11,408,922, equal to 128.2% of outstanding reserves.

More than 420 companies in Canada's electrical manufacturing industry are capable of producing practically all Canada's electrical requirements.

Mr and Mrs W. W. Nalder were hosts to their Study Class Sunday at which time an interesting lesson was presented.

Revealing the highest capital figures in Canadian banking history, the 137th annual financial report of the Bank of Montreal shows record levels for deposits and loans, with resources at a new high for the bank at \$2,548,508,239. The report, covering the year ended October 31, was released this week by Dan Purcell, B of M manager at Raymond.

The bank's paid-up capital, which for many years stood at \$36,000,000 is now shown at \$43,927,912, following the recent offering of new B of M stock, while the rest account stands at \$87,855,824. When the new issue of stock is completed, the figures will reach \$45,000,000 and \$90,000,000, respectively - a total in shareholders' funds, exclusive of undivided profits, of \$135,000,000 the highest figure for any of the chartered banks.

Beyond this important increase in the bank's capital position, the most notable change in the balance-sheet figures is the very substantial enlargement of \$139 million in deposits, which stand at \$2,365 million, compared with \$2,226 million a year ago.

Strong Liquid Position
The bank's traditionally strong liquid position is seen in increases which have occurred in the holdings of government and other securities, now totalling \$1,170 million, as compared with \$982 million in 1953. These holdings comprise the large part of the bank's liquid resources totalling \$1,694,056,090, which equal 70.17% of the bank's public liabilities.

"Commercial and other loans" are up from \$787 million to \$794 million while call loans at \$97 million compare with \$70 million a year ago. A new item in the statement this year is "Mortgages and hypothecs insured under the National Housing Act, 1954 at \$10,880,652.

Increase in Earnings
The statement of earnings shows that, after provision was made for income taxes of \$6,925,000, net profits amounted to \$7,344,274, compared with \$7,042,676 in 1953.

Dividend payments to shareholders were \$5,436,395 - about a million and a half less than the bank's tax-bill - and represented the same rate of return as in 1953.

"The buttermilk biscuits are rolled thin, and put together before baking in twin-pairs with butter, grated cheese and a few celery seeds."

"And as a trick with the prune whip, I added 1/4 cup chopped coconut."

A SPECIAL MESSAGE to CUSTOMERS of the B of M

Getting down to Brass Tacks...

I wish I had a dollar for every time someone asked what we bankers do with the money we hold on deposit. Actually, it's quite a simple question to answer - there's no mystery attached to it.

The money that the B of M has on deposit is kept at work, because - except for the reserves - no dollar is allowed to lie idle. It is either loaned to individuals and enterprises or is invested in Canada's future.

Without adequate financial resources, expansion and progress of most Canadian businesses would be impossible. And, it is the Bank's job to supply a good part of these resources in the form of loans and investments. Quite simply then, it is your money that turns the wheels of enterprise - your savings that contribute so largely to Canada's progress.

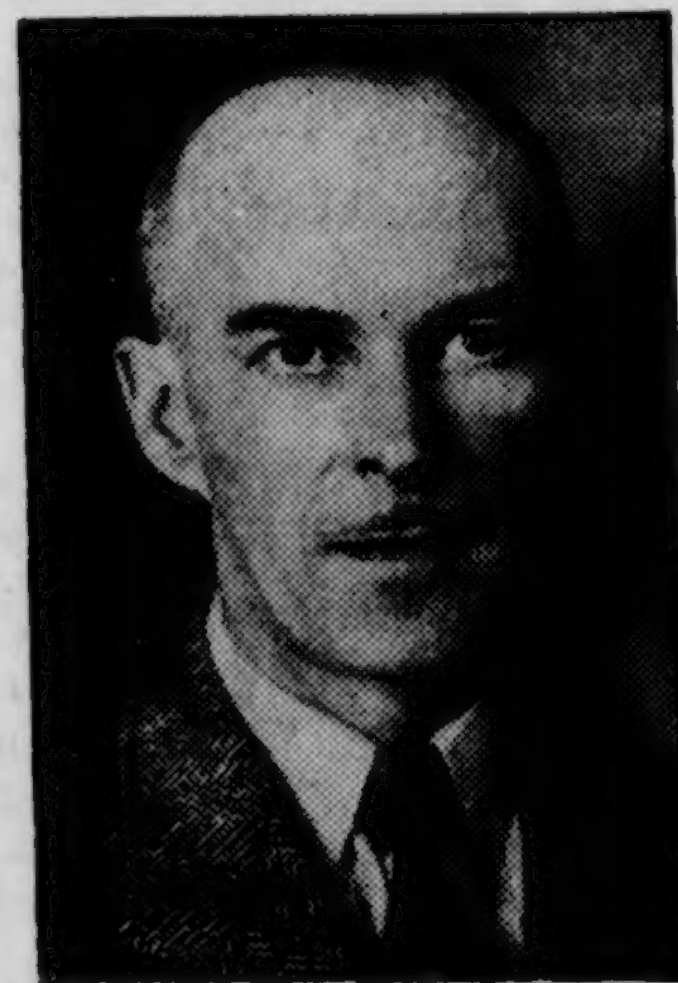

Getting down to brass tacks, let's see the facts behind the figures in the B of M's 1954 annual report:

THE MONEY YOU DEPOSIT: At the end of the Bank's year, October 31st, 1954, you and two million other Canadians had \$2,365,669,857 in deposits with the B of M - the highest on record. Although much of this money belongs to institutions and business firms, well over half of these deposits represent the savings of everyday Canadians - savings that, day by day, are working for you... and for Canada.

THE MONEY WE LEND: Your savings are playing an important role in our expanding economy in the form of loans to Canadians of every calling - farmers, miners, fishermen, oil men, lumbermen, ranchers - to industrial and business enterprises and to Provincial and Municipal Governments.

As of October 31st, B of M loans totalled \$903,148,964 - the highest figure in the history of the Bank. In a thousand ways, these dollars played their part in sustaining our standard of living.

THE MONEY WE INVEST: At the close of the year the B of M had \$952,522,945 invested in high-grade government bonds and other public securities which have a ready market. This money is helping to finance government projects for the betterment of the country and the welfare of Canadians at large. Other securities held by the Bank - which include many short-term credits to industry - bring total investments to \$1,170,406,863.

When you open an account at the B of M, you are not only putting your savings in a safe place but you are also investing in Canada's future. Every dollar you deposit is put to work in some Canadian endeavour that contributes to the steady progress of this great country of ours.

Rated top financial advertiser on
North American continent, the Bank
of Montreal has been awarded the
"Socrates' High Award of the Year"
for its advertising during the pas-
t twelve months. The award has come
to Canada only once before, in 1946,
and it was the B of M also which gained
the distinction on that occasion.

Announcement of the award is made
by Vincent Edwards and Company,
publishers of "Bank Ad-views," a mon-
thly publication which evaluates the
advertising of banks and trust com-
panies throughout the United States
and Canada.

"Bank Ad-views" bases its awards
on a continuing study of thousands of
bank advertisements in daily news-
papers all over the continent, scoring
messages on three counts: ideas which
sell bank services; layout and illus-
trative techniques; layout and illus-
on the bank's relations with the pub-
lic.

Pointing out that "each of these ads
has been subjected to a thorough
review and unbiased analysis," the pub-
lication says: "During the entire year
the promotions used by the Bank of
Montreal have been of such consist-
ently high quality that they have earned
the greatest total award points."

In paying tribute to the B of M,
"Bank Ad-views" comments: "In its
ads, the Bank of Montreal has recog-
nized the needs of its potential cus-
tomers: farmers, businessmen, indus-
trial groups and the general public are
all reached with promotion of specific
interest and value to them. In addition
the bank has cultivated good will through
institutional messages of import-
ance to the community and enterprise.

"Original, timely and effective ideas
were used consistently; visualization
through photos and artwork was out-
standing and skillfully presented; copy
told the message or did the service-
selling job forcefully and convincingly.
Each ad was distinctively that of the
Bank of Montreal, and in keeping with
the high standards of the bank."

Endorsement by the public of the
Socrates Award to the B of M is pro-
vided by the findings of a Canadian
public opinion poll. In a survey recent-
ly conducted by an independent author-
ity, questions put to a large represen-
tative sample of Canadians revealed
that B of M advertising had made a
greater impression on the public than
that of any other bank. The survey
showed that B of M advertising was
preponderantly remembered in street-
cars and buses, and that readers of
"newspapers and magazines noticed and
remembered B of M advertisements
more than twice as much as those of
any other bank.

For the past two years, the Socrates
High Award has been won by the
Bank of America, the largest bank in
the world, while the B of M ranked
in sixth place in 1953 and second in
1952. During 1954 the B of M received
numerous honorable mentions for its
advertising in Canada and the United
States, as well as a "best-ad-of-the-
month award, resulting in its win-
ning of the Socrates' High Award of
the Year.

**WHAT DOES
ECONOMIC
AFFAIRS
DO IN
ALBERTA**

The Department of Econ-
omic Affairs works for the
betterment of economic, cul-
tural and social conditions
within the Province of Al-
berta. The efforts of all nine
branches of the Department
objective.

All branches of public ser-
vice have a direct bearing
upon the welfare and pro-
gress of the people generally
but two of the closer rela-
tionships with the economic
progress of Alberta are main-
tained by the Alberta Travel
Bureau and the Industrial De-
velopment Branch of the De-
part.

All Albertans share direct-
ly or indirectly in the bene-
fits of our tourist trade and
in the orderly development
of our rich resources. The
tourist industry and indus-
trial growth mean prosperity
tourist industry and indus-
comes into the Province and
production of essential goods
is increased. We learn more
about others, and they about
us, and better relationships
follow.

The tourist trade in Al-
berta is big business. Each
year, about one and one-half
million people spend their
holidays at Alberta's famed
resorts.

Conservative estimates in-
dicate tourists spend \$35,000-
600 a year in Alberta. This
money goes into the pockets
of merchants, service station
and garage operators, hotel
and auto court proprietors,
farmers and all producers of
human necessities.

The beauties of
Alberta are the star
attractions; the pro-
duce and service of
the people of Alber-
ta are our stock in
trade; and the tour-
ists are our custom-
ers.

The Travel Bureau helps
create the necessary desire
among our neighbors to visit
the Province, but it remains
the privilege of every Alber-
tan to give our guests a warm
welcome, to see that they en-
joy their stay and to encour-
age them to come again.

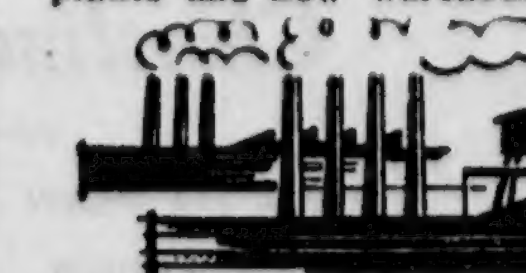

The In-
dustrial De-
velopment
Branch al-
so encour-
ages the
growth of
interest in
Alberta. Every effort is made
to attract attention to indus-
trial opportunities provided
by the Province among busi-
ness men and industrialists
from far and near. Closest
attention is given to all in-
quiries.

Sponsored by the Branch,
an Industrial Development
Board has been operating for
several years. This Board
consists of the Deputy Minis-
ter of Economic Affairs, the
Director of Industrial Devel-
opment and the Industrial
Commissioners and represent-
atives of each Alberta city.

The Board holds meetings
each year at various locations
within the Province to which
local business men and rep-
resentatives of the railways
and banks are invited. On
these occasions the develop-
ment of the Province as a
whole is discussed and pro-
grams for concerted action
towards great development
are formulated.

Activities such as these
are playing an important
part in Alberta's industrial
expansion. In 1953 more than
\$38,000,000 was invested in
new industrial plants, new
additions to established
plants and new warehouses.

That same year the value of
production from all Alberta's
manufacturing industries ex-
ceeded \$537,000,000. New
plants are opening up and
new industries are being es-
tablished in Alberta with im-
pressive regularity; but im-
pressive as our industrial de-
velopment has been over the
past few years, still greater
development for the future
is evident.

ROMEO AND JULIET

(continued from page one)

Derek Ralston is an artist of outstanding polish and finesse whose unerring timing and sense of mood enabled him so admirably a choice for the exacting title role of Romeo.

Edward Stealing is a fine actor of great versatility and warmth, who played the role of Mercutio.

Jack Ammon, a favourite personality has had wide and varied experience in radio and film.

Vivienne Cadwick is famous for her vivid character studies. She played the nurse.

Don Pethley played the part of Ben- volio, Romeo's cousin, very well.

Addy Ross won the hearts of the audience with her comical performance of Peter, the negro boy.

Jack Droy and Dale McDonald were were competent in their roles as Montague and Capulet.

Every fall this group tours Western Canada to give the people Shakespearean plays.

Monica Dudley took drama in London, England. She has played in films "The Magic Row" with Stewart Granger and "The Root of all Evil". On coming to Canada she quickly established herself as one of this country's leading ladies. She is assistant manager of the Lancaster Company and also managed this tour. Her part as Lady Capulet was highly commendable.

All the actors and actresses use their real names, although Dudley is Monica's maiden name.

The people thoroughly enjoyed this James Testemale production and will look forward to welcoming the Lancaster Theatre Company, under the direction of Ian Thorne, back again.

What I like about Christmas is you can make people forget about the past with a present.

COMETS

(Continued from page one)

faced each other in the second half the Comets were an entirely different ball team. The next ten minutes spelled defeat for the visitors. As Raymond potted 26 points the Hatters could only manage two free shots. The final score ended 68-27 in favor of the local quintet and the Comets had gotten off on the right foot this season.

From all appearance the 1955 edition of the R H S Comets is a hopeful one indeed. Aside from the loss of Larry Dahl and Bob Gibb all the old stars are back again in harness and all responding very well to the coaching of Mr. Jacobs. Playing in his third year of 'A' ball is Delynn Hirsche and along side of him are Jack Hicken and Jess Gibb both mainstays of the team last year which you will remember was beaten out by a whisker by the Cardston Cougars in Magrath.

Other familiar faces on the roster include Scott Vance, Lynn Stone, Fred Henderson and two new comers Don Attwood and Dennis Minton. With a lineup like that and a few breaks we should have the makings of a championship team in our school. Heres wishing you the best of luck.
